## All Season Nails Rapido Soak Off UV Gel Master Kit!

*A great alternative to polish!*

Valencia, CA – January 2, 2012

Soak Off UV Gel manicure and pedicures are becoming one of the most asked for services in salons today. Soak Off UV Gel is a great alternative to a picture perfect polished look! The gels last weeks longer than traditional polish. The gel coat shrink-wraps itself around the nail, giving it a coating that is strong yet flexible and gives nails an overlay topcoat with less chipping or peeling. Soak Off UV Gels are great for use on natural nails, gel and acrylic over lays.

ASN Rapido Soak Off UV Gel contains self-leveling properties to make for a smooth and easy application with no lifting and a super glossy finish with no use of a topcoat! The Soak Off UV Gel is a softer gel than the traditional gel –it flexes with the nail giving less chance of chipping and cracking while filling in any nail imperfections. The gel can be broken down and removed with conditioning Rapido Soak Off Solution. Changing your gel just got a whole lot easier, they soak off within minutes! The gels are available in one cohesive color kit (the master kit contains: 22 of the hottest colors, pink, white and clear as well as a 8oz.soak off solution, 4oz.finishing wipe and a set of 4 gel brushes). All Season Nails is offering a great deal for the month of March-April only, buy a master gel kit and get a 36-watt UV lamp free!

Position yourself as a gel-a-holic! Get your clients addicted to the latest trend to hit salons and spas with a moneymaking alternative to polish! Offer this service now! Call today for other great products using the gel systems log on to [www.allseasonnails.com](http://www.allseasonnails.com)
